ATILLA YILMAZ TARIM DANIŞMANLIK SAN. ve Tic.
www.vulcanturkey.com

PURPOSE

Solving limescale problems in the irrigation systems and better processed photosynthesis, which is inhibited by limescale cyanide. Protecting heating and cooling systems in farm buildings against limescale.

RESULTS

With the introduction of Vulcan, the blockages in the irrigation systems were not noticed again. After Vulcan was started to be used, it was observed that the plants could be fed more easily, the plant roots were stronger, fertilizer and water utilization increased.

In addition, limescale stains on the plants caused by limescale disappeared. The equipment in the main building and technical buildings were protected against lime and rust.
